

New capabilities when moving from QuickBooks to Sage 100 Contractor

The features comparison chart below provides detail surrounding the additional capabilities provided to our customers who have made the switch to Sage 100 Contractor (formerly Sage Master Builder). From this single software solution, you can control every aspect of your business: accounting, estimating, scheduling, project management, service management, and more. As a result, Sage 100 Contractor provides the visibility to improve how your business is performing on each job—and the integration you need to eliminate inefficiencies and minimize errors.
