

Work better, faster.

Set the right pace for your team with real-time labor productivity tools that eliminate your administrative burden and ensure payment for out-of-scope work performed.

Protect your profits.

Monitor labor costs in real time, identify at-risk scopes of work, and act fast to make decisions that positively impact your project's budget and profitability.

Get paid.

Capture, document, and track out-of-scope work with the T&M Tickets tool. Get instant insight into any changes from the field and ensure you get paid.

Stay on target.

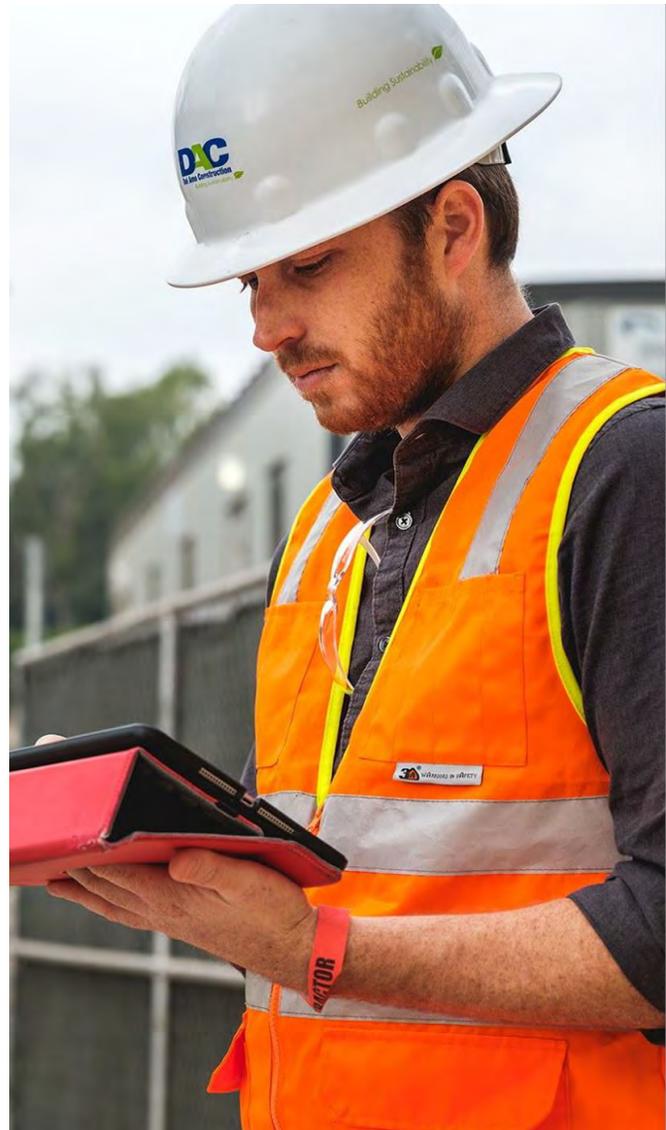

Track quantities of material installed to keep your field teams productive and projects on schedule. Leverage actionable insights to more accurately and competitively bid on future jobs.

Free up time.

With faster and easier time collection, you can view labor and production rates in real time, from anywhere, and ensure timecards are accurate the first time.

“The triple carbon copies and emails were tough to track down, required a duplication of effort, and were sometimes submitted too late to get paid. Now, I can easily see if T&M tickets have been created even if the field doesn't let us know.”

Joel Middleton
Vice President, Estimating
Dolan Concrete

Maintaining safety and efficiency on site in uncertain times.

It's never easy balancing safety and efficiency, but a viral pandemic makes it even harder. Procore can help you document, share, and store information to facilitate remote communication across project and office teams.

We've got the tools to help.

Inspections

Use the new "Jobsite Cleanliness and Preparedness Checklist" to take preventative measures necessary in maintaining a clean jobsite and to mitigate the spread of the disease.

Daily Log

Create custom COVID-19 delay types in the Delay Log to track cumulative time delays across a defined duration.

Emails and Announcements

Create COVID-19 specific email tags that can be applied to pertinent emails for easy filtering, or create distribution groups to make sending updates even easier.

Meetings

With the new [Zoom](#), [Microsoft Teams](#), and [GoToMeeting](#) integrations, quickly create video conference calls so everybody can communicate and collaborate effectively while working remotely.

Incidents

Document COVID-19 symptoms observed on the jobsite.

4.5

Process and distribute
Change Orders 4.5 days
faster.

50%

Improve project-to-
finance team
transparency.

30%

Less non-recoverable
Change Orders.

What's New in Procore

We released 50 product enhancements from April 2021 - June 2021.
To see the full list of updates, visit procore.com/whats-new.

FEATURED UPDATES

Documenting COVID-19 incidents.

With the Incidents tool, Procore can help you capture and report on a 'Recordable/Notifiable' incident in the event an illness or injury.

Stay in the office. Connect to the field.

Office and field teams are further apart than ever. These releases bring your teams closer together by giving them the ability to communicate, easily access, and share information in one place.

See the new BIM web viewer.

Eliminate onsite surprises with the ability to share and access 3D models on any web browser and iOS device.
[Learn More](#)

Integrate Invoice Management with Sage 300 CRE.

Streamline invoicing and pay subs faster by connecting Procore Invoice Management to any Sage 300 CRE account.
[Learn More](#)

Customize your software to mirror your needs.

When it comes to your business, one size does not fit all. These releases support Procore's commitment to the flexibility and customization you need for your projects.

Customize your prequalification process.

Adapt to new challenges with custom prequalification questions that align with your risk management strategies.
[Learn More](#)

Manage your self-perform work.

Manage unit-based budgets and understand the financial impact of labor costs the moment timesheets are submitted.
