CONFIGURABLE MANUFACTURING WORKFLOWS

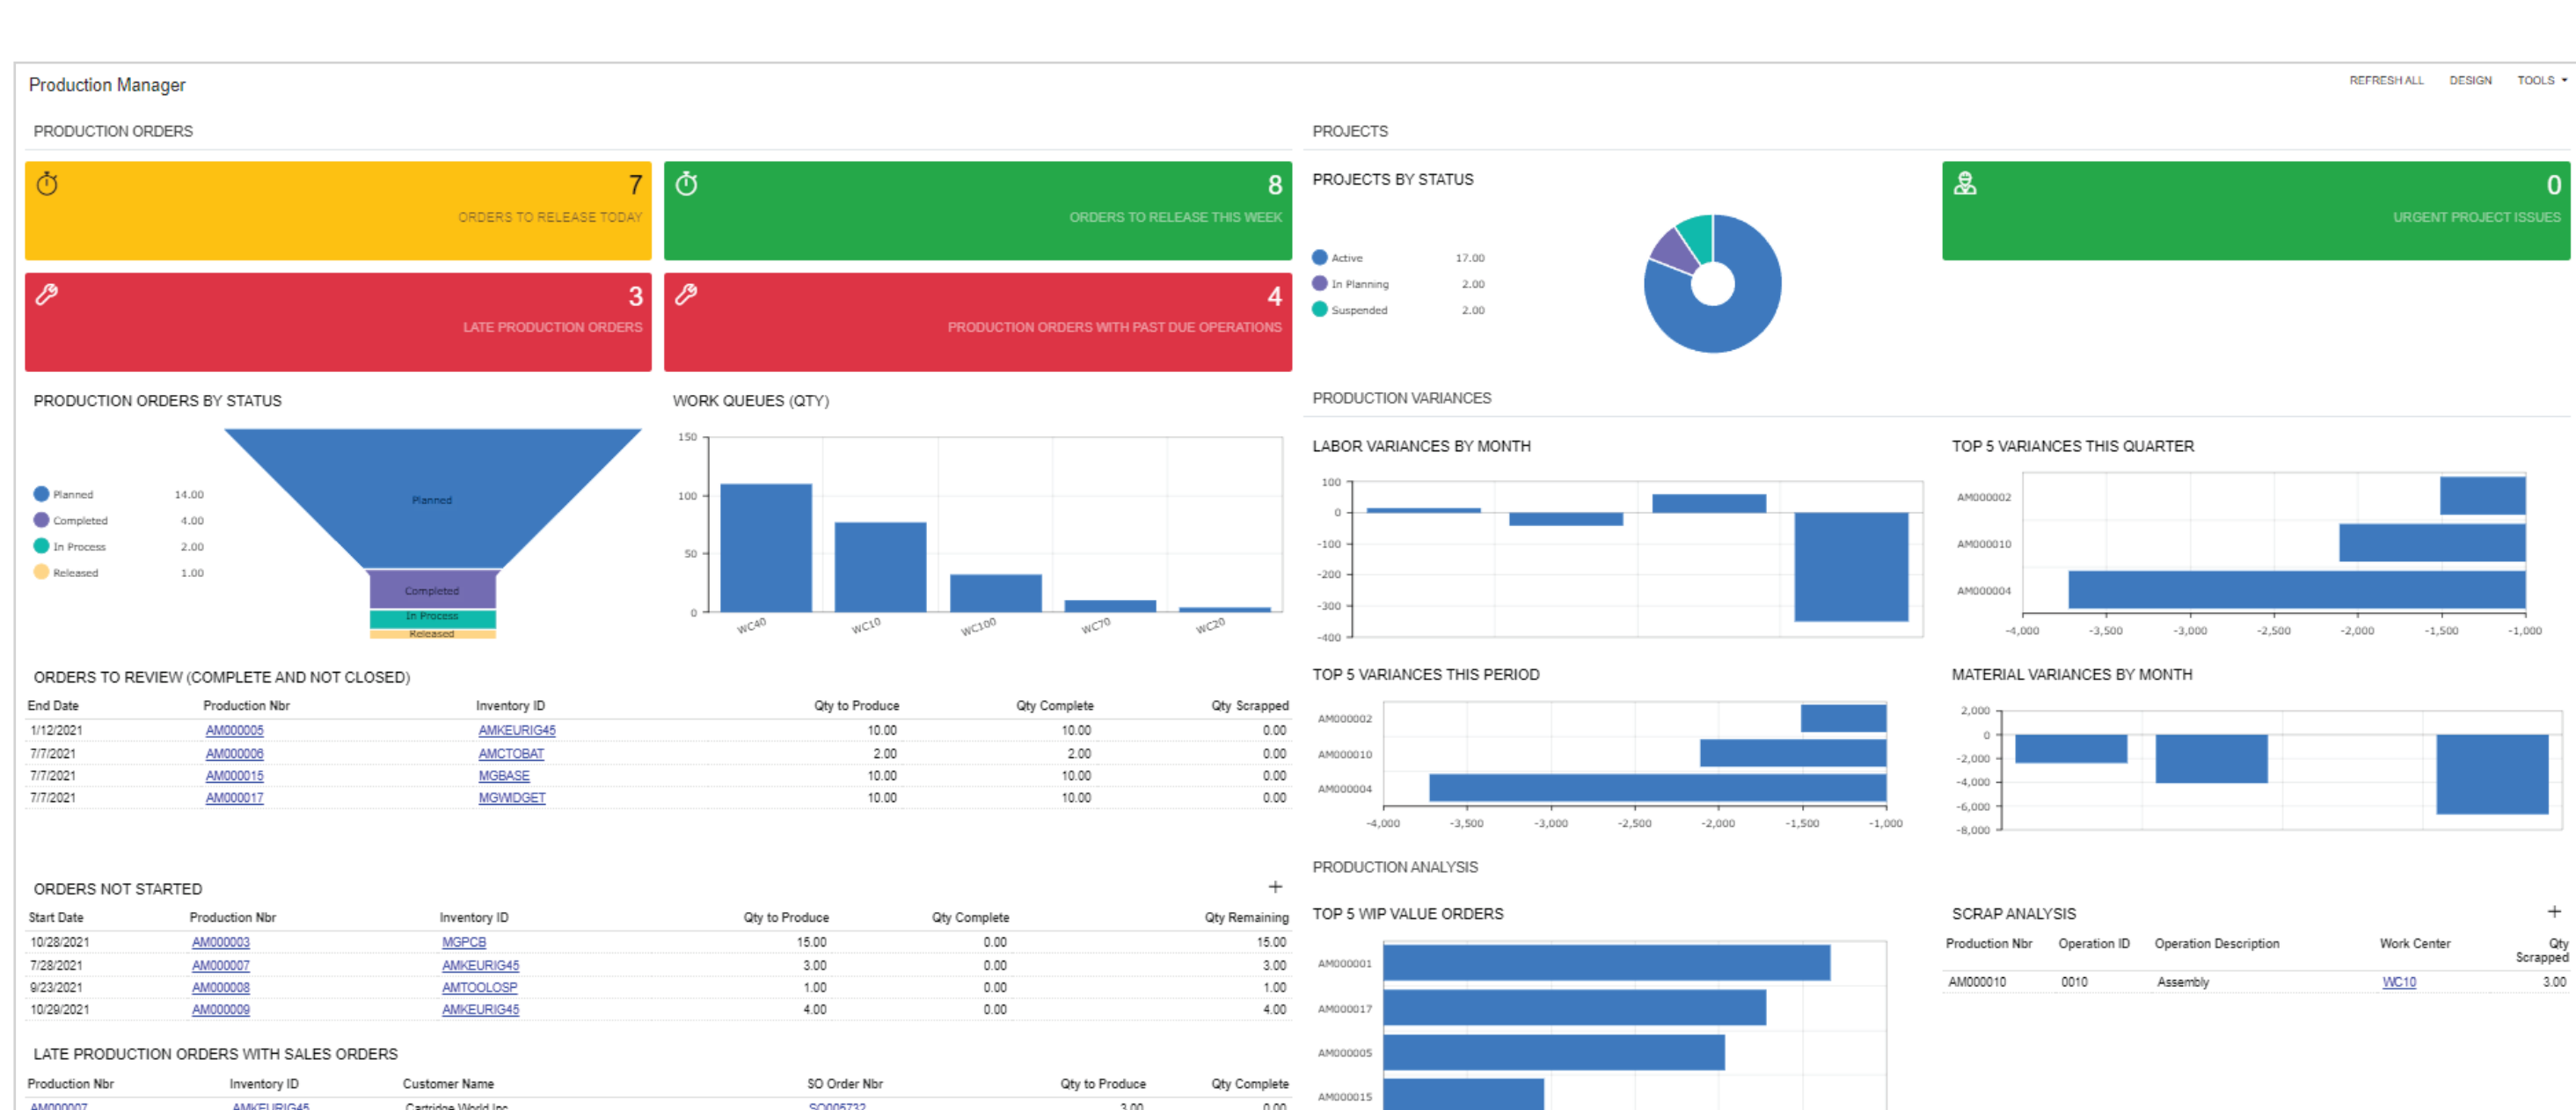

Create custom workflows for manufacturing and inventory transactions with automation and built-in notifications via business events. Notify shipping when production is complete for high priority orders, alert purchasing automatically for low-stock items required for scheduled production orders, and build workflows to streamline the handoff from estimating to sales and production.

“When we talk about Acumatica, it’s not just about accounting but about where we do all our business. We work in Acumatica and don’t need to leave.”
